Location(s): Pécs, Szeged

Career Objective

Aspiring software engineer with a focus on web development and artificial intelligence. Eager to contribute problem-solving skills and build innovative solutions in collaborative environments.

Skills

Languages: Hungarian (Native), English (C1)

Technical: Python, Java, C/C++, JavaScript, PHP, HTML, CSS, React, MySQL, PostgreSQL

Tools: GitHub, PyCharm, IntelliJ, WebStorm, PlatformOS

Soft Skills: Problem-solving, Attention to detail, Team collaboration

Work experience

Intern - Web Developer: Origin Develop Kft. | 3 months, 2025

- Developed and maintained frontend features for a PlatformOS-hosted website using HTML, CSS, JavaScript, and Liquid.
- Collaborated in a small agile team, ensuring seamless integration of frontend components with the backend system.
- Debugged and optimized code to improve website performance and user experience.
- Assisted in version control workflows using Git, ensuring smooth collaboration and code management.
- Gained hands-on experience with PlatformOS hosting, a low-code platform for dynamic web applications.

Projects

E-commerce Website

- Built a dynamic e-commerce site without using frameworks, focusing on fundamentals.
- Gained first experience with Git version control.

Classical Snake Game AI

- Developed AI-controlled Snake in Java using pathfinding algorithms (A*, BFS) for a university course. Focused on optimization and logic structuring.
- Focused on optimization techniques and logical structuring for AI behavior.

Education

2022 - Present | University of Szeged, Faculty of Science and Informatics
Software Engineering BSc

2017 - 2021 | Dombóvári Illyés Gyula Gimnázium
High School Diploma
